Data Visualisation

STREAM INSIGHTFUL DATA DISTILLED INTO VISUAL DECISION POINTS

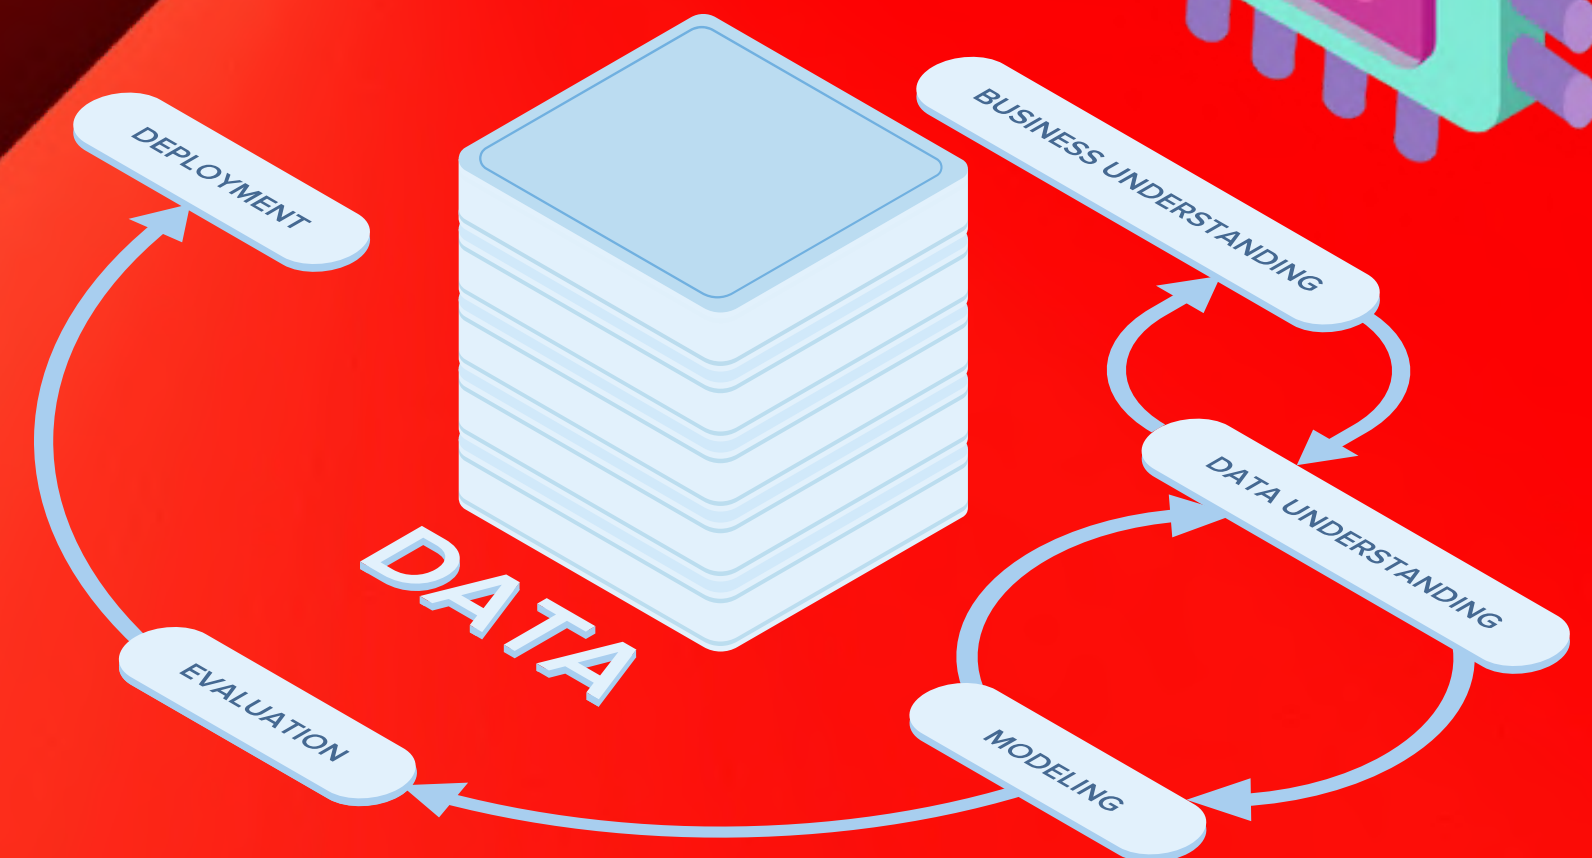

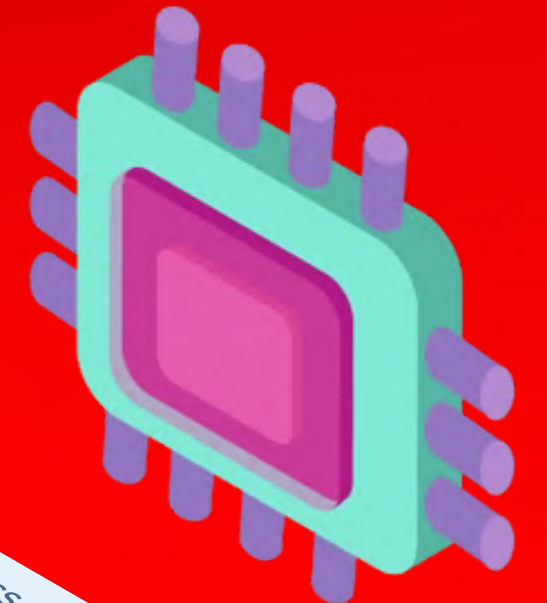

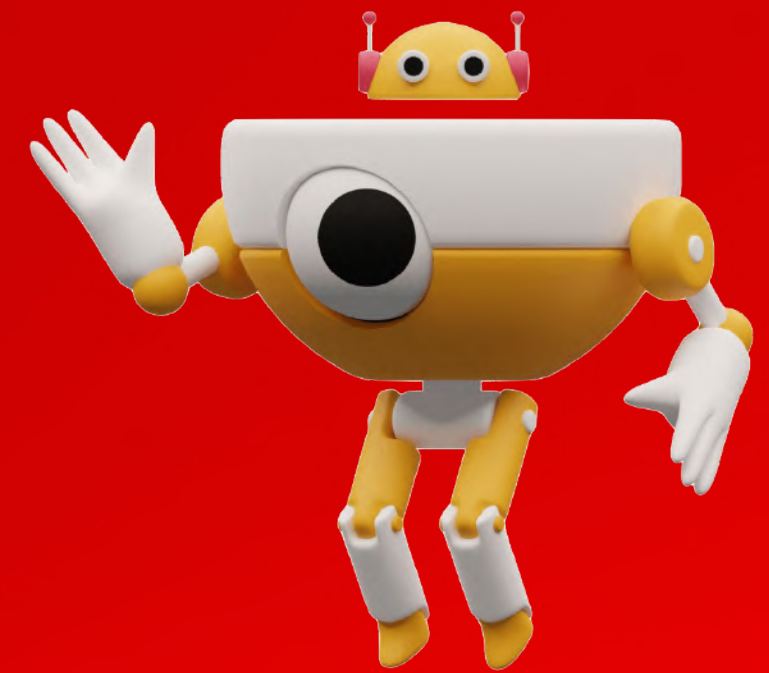

- Real-time dashboards which connect data to decision making
- Company customized dashboard which beautiful, optimized, and easy to interpret.

Artificial Intelligence

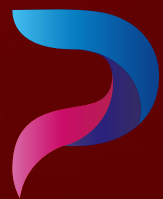

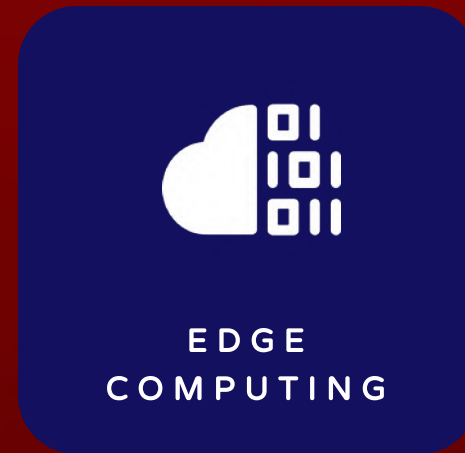

'NATURAL' RESPONSIBLE AI MADE FOR HUMANS

- Move tenuous operations to automation
- We build model with equity and ethics in mind
- Great attention is paid to improving experience by delivering AI in a 'natural' feel.

DevOps/MLOps

- We deploy scale-first models
- We support building app deployment environments in the cloud, using the best cloud provides that AWS, GCP, Azure, etc

Thank you

We are waiting to work on your project

Smart Digital Marketing

- We use advanced sentiment analysis to monitor campaign performance.
- We analyse traffic paths to optimise advertising focus in social and search campaigns
